EBDG Represents AMD Marine Consulting Designs

SEATTLE, WA (January 22, 2019) – Elliott Bay Design Group (EBDG) has signed a licensing agreement with AMD Marine Consulting (AMD) of Sydney, Australia to be their exclusive North American vessel design representative. AMD specializes in high-speed, multi-hull vessel designs. The partnership brings together a wide-ranging collection of vessels and marine expertise.

AMD's catamaran hull forms are ideal for the high-speed ferry market as well as military and paramilitary vessels, fisheries patrol and rescue vessels. There are over 200 AMD-designed vessels in operation around the world ranging from 15 meters to over 100 meters in length. Most recently, AMD designed the three 43.5 meter passenger ferries for San Francisco Bay's Water Emergency Transportation Authority (WETA), currently under construction at Dakota Creek Industries.

"EBDG is excited to partner with AMD, the collaboration expands our repertoire of vessel designs available for clients," states Christina Villiott, VP of Sales and Marketing. "AMD has an impressive portfolio with expansive application opportunities in North American markets."

AMD Technical Director, Allan Soars comments, "We look forward to working with such a well-credentialed design company that shares our ideals, particularly in regard to ease of construction and efficient, reliable vessel operation."

ABOUT AMD MARINE CONSULTING

AMD Marine Consulting (AMD) is a naval architecture and marine engineering firm based in Sydney, Australia. They design high-speed vessels and provide consulting services to designers, shipyards and ship operators. AMD is well known for its research and development in the area of catamaran seakeeping. They developed a new generation of wave piercing catamaran designs that are used extensively for coastal patrol and search and rescue in rough conditions and are effective in reducing seasickness on offshore passenger routes. For more information, please visit www.amd.com.au.

ABOUT ELLIOTT BAY DESIGN GROUP

Elliott Bay Design Group LLC (EBDG) is an employee-owned company with offices in Seattle, New Orleans, Ketchikan and New York that provides naval architecture, marine engineering and production support services to owners, operators and shipyards across the country. With a focus on responsiveness, EBDG delivers designs that are better to build and better to operate. For more information, please visit www.ebdg.com or follow us through social media.
