

## NOW HIRING!

### Project Manager

It is an exciting time to be in the marine business and Elliott Bay Design Group (EBDG) is seeking a qualified [Project Manager](#) to join its team of professionals. The ideal candidate will have a bachelor's degree from an ABET accredited school. The candidate who fills this role will lead project teams in the development of the modification and support of new commercial vessels, and modification and support of existing vessels. This individual may also provide leadership in project management practices, personnel, and standards development. Work will primarily be in the Seattle, WA office with travel for client meetings and inspections aboard ships and in shipyards. Our team-based approach empowers staff to work both independently and as part of an interdisciplinary group. You will be working closely with a team of experienced naval architects, marine engineers, electrical engineers, marine designers, and project managers. You will also have the opportunity to manage relationships with existing clients as well as actively pursue new opportunities with potential clients.

Position requirements include:

- Seven to ten years of experience in commercial design, operation, or construction in addition to an engineering or related degree. A Master's Degree is a plus but not a requirement.
  - A professional engineer's license or on track to obtain a professional engineer's license is preferred.
  - Seven or more years of experience as a project manager. CAPM or PMP certification is a plus.
  - Experience managing a technical team for completion of a complex vessel design from initial concept through detailed design for production.
  - Thorough familiarity with SOLAS, USCG-inspected vessel regulations and ABS/DNV class rules.
  - Experience supporting common shipyard activities such as dry dockings, repairs, stability tests and vessel inspections.
  - Experience developing detailed project proposals and budgets.
  - Experience negotiating engineering and contractual issues.
  - Experience developing construction cost estimates and evaluation of shipyard change proposals.
  - Experience with large ferries, fishing vessels, tug and passenger vessel design is a plus.
  - Proficiency with MS Office software including MS Project.
-

## ELLIOTT BAY DESIGN GROUP

Work will primarily be in an office environment (5 days per week typically) with travel for client and project meeting. The successful candidate will have excellent writing and oral communication skills and will be able to work both independently and with a team. Writing reports and contract specifications is required.

Proof of eligibility to work in the U.S.A. is a requirement. No second party referrals or contact, please. EBDG has a zero-tolerance policy regarding drug use.

Along with competitive salary, EBDG offers a variety of benefits including medical, vision, 401(k), PTO, holidays, and profit sharing. We believe that investing in our employees is paramount, so we offer training and mentoring programs to support our staff's goals and objectives. As an employee-owned company, future ownership opportunities available after one year of employment.

Elliott Bay Design Group LLC provides equal employment opportunities to all employees and applicants for employment without regard to race, color, religion, sex, national origin, sexual orientation, gender identity, protected veterans, age, disability, or genetics. In addition to federal law requirements, EBDG complies with applicable state and local laws governing nondiscrimination in employment.
